About the Challenge

The Xylem Global Student Innovation Challenge is an eight-week virtual competition for university and high school aged students. It aims to provide a platform that deepens the passion of students in water innovation and enhances their knowledge in the water sector.

Participants work in teams to solve real-world water challenges using creativity, and strategic thinking. Experts from Xylem and partner institutions or organizations, including customers and suppliers, participate as mentors, organizers, and judges throughout the competition.

Participants will also gain access to a series of deep-dive learning sessions, expert-led webinars, water masterclasses, one-on-one mentoring and coaching.

Who can participate?

- High school and university students
- Ages 13-25 years old at the time of registration
- Team or individual participant
- Open to all academic track or program, but preferably those who are pursuing STEM or Engineering

Why join?

- Mentoring from water experts
- Access to learning resources in the water sector based on the challenge theme
- Be part of a global network of students who solve the world's most pressing water challenges
- Win from a prize pool of USD 20,000.00
