Topic: Renewable Energy and Environment

Renewable energy comes from natural sources like the sun, wind, and water. Today, many countries are trying to use clean energy to protect our environment and lower pollution.

Question 1: Do you do anything in your daily life to save energy or protect the environment?

Question 2: Do you think clean energy (like solar or wind energy) is better than using coal or oil? Why / Why not?

Question 3: What are the main good sides and bad sides of using renewable energy?
