

# ORVILLE 4 Seasons: Information System Project Student

Groupe Renault • Bursa, Turkey

Joining Oyak Renault means stepping into the world's largest automotive organization "Renault Nissan Mitsubishi Alliance" engaged to develop mobile, connected and autonomous mobility solutions.

Are you as excited as we are to develop future mobility solutions together? If your answer is yes; we would like to meet you in our company which get you the opportunity to work on high-tech products, production and business processes, and always stay up-to-date in this rapid change.

In Oyak Renault, you can experience career opportunities on a global scale while experiencing a corporate culture with a global management approach. Through meaningful and challenging jobs, developer projects and teamwork, you feel that you contribute to the success of the company in every role and at all levels.

Now we would like to reinforce our organization and capital richness by integrating new colleagues.

We are looking for a motivated team member who is willing to contribute to his/her professional development in information systems in the international network of the biggest automotive alliance in the world. (Renault – Nissan – Mitsubishi)

This role offers a fast track learning experience for those who are interested in pursuing a career in IS Data Analytics field.

Our project assistant will be a direct member of IS development team and take active responsibility in the following activities:

## Roles & Responsibilities:

- Take the role software development (workflow) projects.
- Understand the business use-cases well that may be answered by data
- Contribute to the design, proof of concept and integration of the solution which meets the Product Owner's requirements.

## Preferred Candidate Qualifications:

Able to work at least 3.5 days at Oyak Renault Bursa plant

Preferably studying in Computer Science, Engineering or Statistics

Proven experience in at least one of .NET, Javascript, HTML, CSS

Great level of knowledge in relational databases such as MSSQL, PostgreSQL

At least basic knowledge in eBA Workflow

Fluent level of English

Team work focus, ability to work in cross functional teams

Well organized; strong planning and organization skills

## Our Offerings:

Monthly salary equal to minimum wage

Monthly travelling and accommodation allowance (exact amount will be determined based on the number of days candidate can come to Bursa)
