

Project Code	P.Type	Project Grup	Status	The name of the Project	Manager	Unit	Date of start	Date of finish
HDP(V)-2020/4	Short Term	Health Sciences	Completed	Comparison of different sampling methods in determining the presence of Salmonella with ISO 6579-1:2017 in broiler carcasses	Prof.Dr. SERAN TEMELLİ	FACULTY OF VETERINARY MEDICINE	6.04.2020	24.08.2021
HDP(V)-2020/5	Short Term	Health Sciences	Completed	Establishment of typhoid and non-typhoid Salmonella isolate culture collection	Prof.Dr. AYŞE GÜL EYİĞÖR	FACULTY OF VETERINARY MEDICINE	31.03.2020	24.08.2021
HDP(V)-2020/38	Short Term	Health Sciences	Completed	Identification and counting of probiotic bacteria in Bifidobacterium and Lactobacillus species during shelf life in probiotic yogurt and ayran samples	Assoc.Prof.Dr. ARTUN YIBAR	FACULTY OF VETERINARY MEDICINE	30.09.2020	19.04.2021
DDP(V)-2018/5	Doctoral research	Health Sciences	Completed	The Role of PFKFB Isoenzymes in Cancer Stem Cells	Assoc.Prof.Dr. SAİME GÜZEL	FACULTY OF VETERINARY MEDICINE	21.05.2018	24.08.2021
DDP(V)-2019/11	Doctoral research	Health Sciences	Completed	Clinical, histopathological and immunohistochemical investigation of the efficacy of solution and gel containing aloe vera (Aloe barbedensis Miller) on open wound healing: Experimental study in rats.	Prof.Dr. NİHAL YAŞAR GÜL SATAR	FACULTY OF VETERINARY MEDICINE	10.10.2019	5.04.2022
DDP(V)-2019/12	Doctoral research	Health Sciences	Completed	Changes in the amount of nitrite during the production and storage stages of salami	Prof.Dr. GÜL ECE SOYUTEMİZ	FACULTY OF VETERINARY MEDICINE	10.10.2019	10.05.2022
DDP(V)-2019/13	Doctoral research	Health Sciences	Completed	Investigation of the efficacy of two different chemotherapy protocols used in neoadjuvant chemotherapy in locally advanced mammary tumors in dogs.	Prof.Dr. DENİZ NAK	FACULTY OF VETERINARY MEDICINE	15.11.2019	4.10.2022
DDP(V)-2019/14	Doctoral research	Health Sciences	Completed	Evaluation of the efficacy of bovine colostrum in treatment and its effect on proteomic structure in blood serum in calves with cryptosporidiosis.	Prof.Dr. HASAN BATMAZ	FACULTY OF VETERINARY MEDICINE	6.12.2019	28.12.2020
DDP(V)-2020/1	Doctoral research	Health Sciences	Completed	Evaluation of the efficacy of inhibition of polyamine biosynthesis and glycolysis pathways in the treatment of pancreatic adenocarcinoma.	Prof.Dr. NAZMİYE GÜNEŞ	FACULTY OF VETERINARY MEDICINE	31.03.2020	24.05.2022

DDP(V)-2020/7	Doctoral research	Health Sciences	Completed	Functional Macroscopic and Microscopic Investigation of Muscles Affecting the Hind Leg Ankle (ArticulatioTarsi) and Finger (Articulationes Digiti Pedis) Joints in Quail (Coturnix Coturnix) and Pigeon (Columba Livia)	Assoc.Prof.Dr. İLKER ARICAN	FACULTY OF VETERINARY MEDICINE	8.05.2020	14.06.2022
DDP(V)-2020/8	Doctoral research	Health Sciences	Completed	Is cystic endometrial hyperplasia a canine endometrial cancer?	Prof.Dr. RABİA GÖZDE ÖZALP	FACULTY OF VETERINARY MEDICINE	16.07.2020	26.04.2022
DDP(V)-2020/9	Doctoral research	Health Sciences	Completed	Phenotypic and Genotypic Characterization of Beta-lactam Resistance in Feline and Canine originated Staphylococcus Species	Prof.Dr. AYŞİN ŞEN	FACULTY OF VETERINARY MEDICINE	6.05.2020	19.04.2022
KUAP(V)-2017/10	Small Scale Research	Health Sciences	Completed	Comparison of cytological, microbiological and histopathological findings of genital tract of cows with different degrees of pneumovagina	Assist. Prof. Dr. EMSAL SİNEM ÖZDEMİR SALCI	FACULTY OF VETERINARY MEDICINE	5.01.2018	2.04.2021
KUAP(V)-2018/12	Small Scale Research	Health Sciences	Completed	Determination of the frequency of CSN1S2 gene and its effect on milk yield and composition in Saanen goats.	Assoc.Prof.Dr. DENİZ DİNÇEL	FACULTY OF VETERINARY MEDICINE	6.08.2018	2.04.2021
OUAP(V)-2020/2	Medium Scale Research	Health Sciences	Completed	The effects of antioxidants on freezing and artificial insemination success in bee semen.	Assoc.Prof.Dr. SELİM ALÇAY	FACULTY OF VETERINARY MEDICINE	8.05.2020	25.04.2022
TDAP(V)-2018/2	Supplementary Support	Health Sciences	Completed	Determination of phenotypic and molecular virulence characteristics of Vibrio spp. and Pseudomonas spp. Species isolated from Aquaculture.	Assist. Prof.Dr. MUHAMMED DUMAN	FACULTY OF VETERINARY MEDICINE	5.02.2020	6.04.2021
DDP(V)-2020/17	Doctoral research	Health Sciences	Completed	Evaluation of serum FGF21, ANGPTL4 and PON1 levels in dairy cows in the transition period	Prof.Dr. ENGİN KENNERMAN	FACULTY OF VETERINARY MEDICINE	30.10.2020	23.08.2022
KUAP(V)-2014/44	General Reserch	Health Sciences	Completed	Microbiological Evaluation of the Process in the Production Stages of Some Meat Dishes and Salads Produced in a Catering Business	Prof.Dr. GÜL ECE SOYUTEMİZ	FACULTY OF VETERINARY MEDICINE	26.09.2014	30.05.2022

KUAP(V)-2017/4	General Reserch	Health Sciences	Completed	Comparative Determination of Antimicrobial Drug Residues in Biological Samples of Calves Before and After Slaughter by HPLC and Biochip Array Technique	Prof.Dr. HASAN HÜSEYİN ORUÇ	FACULTY OF VETERINARY MEDICINE	12.05.2017	17.01.2020
KUAP(V)-2018/2	General Reserch	Health Sciences	Completed	Effects of Orally Taken Capsaicin on Adipokine Expression in Adipose Tissue	Assist.Prof.Dr. TUNCAY İLHAN	FACULTY OF VETERINARY MEDICINE	9.04.2018	7.09.2020
OUAP(V)-2016/8	General Reserch	Health Sciences	Completed	Investigation of the Effects of Human Animal Bond on Some Physiological Parameters and Behavior with External Telemetry System in Dogs	Prof.Dr. CENK AYDIN	FACULTY OF VETERINARY MEDICINE	7.06.2016	17.01.2020
KUAP(V)-2016/6	General Reserch	Health Sciences	Completed	Investigation of the Effect of Human-Equine Interaction on the Performance of Horses Used in Endurance Competitions	Prof.Dr. TÜREL ÖZKUL	FACULTY OF VETERINARY MEDICINE	28.04.2016	11.05.2018
BUAP(V)-2016/1	General Reserch	Health Sciences	Completed	Comparison of ovarian follicle dynamics in and out of breeding season in Saanen goats and monitoring of ovarian follicle dynamics and hormonal changes during early pregnancy	Prof.Dr. İBRAHİM DOĞAN	FACULTY OF VETERINARY MEDICINE	10.06.2016	5.02.2021
OUAP(V)-2015/28	General Reserch	Health Sciences	Completed	Evaluation of Metabolic Profiles During Transition Period in Saanen Goats	Prof.Dr. SEZGİN ŞENTÜRK	FACULTY OF VETERINARY MEDICINE	14.10.2015	17.01.2020
OUAP(V)-2015/27	General Reserch	Health Sciences	Completed	Investigation of the Interaction of PFKFB3 with Slug	Prof.Dr. ABDULLAH YALÇIN	FACULTY OF VETERINARY MEDICINE	14.10.2015	17.01.2020
OUAP(V)-2015/25	General Reserch	Health Sciences	Completed	Isolation of Adipose Tissue Originated Mesenchymal Stem Cells from Rat and Its Use in Bone Tissue Damage	Prof.Dr. HATİCE ERDOST	FACULTY OF VETERINARY MEDICINE	14.10.2015	17.01.2020
BUAP(V)-2015/3	General Reserch	Health Sciences	Completed	Evaluation of Microdecompressive Spinal Surgery Results by Electromyographic Examination in Dogs	Prof.Dr. HAKAN SALCI	FACULTY OF VETERINARY MEDICINE	25.04.2016	7.09.2020
KUAP(V)-2015/10	General Reserch	Health Sciences	Completed	Characterization of extended-spectrum β-lactamase resistance in multiple antimicrobial resistant Escherichia coli.	Prof.Dr. MURAT CENGİZ	FACULTY OF VETERINARY MEDICINE	18.03.2015	7.04.2021

TGA-2021-371	General Reserch	Health Sciences	Completed	Effect of Grape Seed Extract on Growth Performance and Oxidative Stress in Holstein Calves Under Heat Stress	Prof.Dr. HAKAN BİRİCİK	FACULTY OF VETERINARY MEDICINE	4.05.2021	4.10.2022
TDK-2021-388	Doctoral research	Health Sciences	Completed	Effect of Royal Jelly on Proliferation and Apoptosis of Ovarian Cancer Cells	Prof.Dr. BERRİN ZİK	FACULTY OF VETERINARY MEDICINE	22.03.2021	23.08.2022
THIZ-2021-397	Short Term	Health Sciences	Completed	Comparison of the effects of tiletamine-zolezepam ketamine-diazepam and propofol anesthesia applications with infusion technique in rabbits	Prof.Dr. AYŞE TOPAL	FACULTY OF VETERINARY MEDICINE	1.06.2021	5.04.2022
KUAP(V)-2019/1	General Reserch	Health Sciences	Completed	The Effect of Postpartum Period Management on Fertility in Dairy Cows	Prof.Dr. AHMET GÜMEN	FACULTY OF VETERINARY MEDICINE	7.02.2019	30.04.2021
OUAP(V)-2017/4	General Reserch	Health Sciences	Completed	Investigation of the Role of PFKFB2 in Tumor Cell Biology	Prof.Dr. ABDULLAH YALÇIN	FACULTY OF VETERINARY MEDICINE	5.01.2018	5.01.2020
HDP(V)-2012/14	Short Term	Health Sciences	Completed	The Effect of Oligofructose Use in Weaning Period on Blood Calcium, Phosphorus and Magnesium Levels, Health, Stool Structure and Microbiology in Saanen Kids	Assoc.Prof.Dr.Ç AĞDAŞ KARA	FACULTY OF VETERINARY MEDICINE	22.02.2012	22.02.2013
OUAP(V)-2018/12	Medium Scale Research	Health Sciences	Completed	Identification of new biomarkers by serum proteomic profiling in dogs with heart failure	Prof.Dr. ZEKİ YILMAZ	FACULTY OF VETERINARY MEDICINE	14.12.2018	14.04.2020
DDP(V)-2018/6	Doctoral research	Health Sciences	Completed	Investigation of the effects of Ankaferd Blood Stopper® (ABS) in the prevention of postoperative intra-abdominal adhesions from clinical, histopathological and immunohistochemical aspects: Experimental research on rats.	Prof.Dr. NİHAL YAŞAR GÜL SATAR	FACULTY OF VETERINARY MEDICINE	21.05.2018	12.04.2022
