Certificate Program for Corporate Sustainability at National Level

Corporate Sustainability Education for SME's (National Level)

Description:

1. Environmental Engineering Department of Bursa Uludag University organizes an educational program on climate change every year for the children of the employees of the industries in the city. This year

the program was conducted online because of the pandemic. The children are provided with educational materials, and they also prepare their videos on climate change as part of the program.

2. Educational programs on climate change are organized every year for students of secondary education in the city. Training materials are provided to the students.
3. Bursa Uludağ University (BUÜ) students prepared hundreds of seed balls to be thrown into the empty spaces of the university campus in the event held under the leadership of the Sustainable Campus Coordinator Office.
4. The use of elevators in university units was suspended on a day determined within the framework of the “No Elevator Day” event held every year by Bursa Uludağ University (BUÜ) Sustainable Campus Coordinatorship.
5. Within the framework of the “Environment Walk” event organized within the scope of Bursa Uludağ University (BUÜ) Sustainable Campus Project, university staff and students walk for the environment on the campus every year on World Environment Day.
6. Bicycle stations have been opened at 4 different points on the campus in order to facilitate the transportation within the campus and to be environmentally friendly. A healthy transportation will be provided by saving energy and time.
7. In the event to meet sustainability, which was held with the participation of students from various primary schools and university students; Topics such as climate change, sustainable development and its relationship with music were discussed. The event ended with a piano concert and environmental slogans.
8. Ecological gardens are a project that aims to bring university staff together with soil, plants and nature. Students cultivate one of the ecological gardens of 60 square meters, consisting of 112 parcels.
9. It includes a comprehensive study aimed at not using tobacco indoors and outdoors, not selling tobacco on campus, and providing assistance to those who want to quit smoking.
10. We organize a Corporate Sustainability Expertise Certificate program for industry representatives two times a year. We also provide educational materials.
11. We organize corporate sustainability education for SMEs in Turkey every year.
