[1] Setting and Infrastructure (SI)

[1.4] Campus Setting

Description:

The Main Campus of Bursa Uludag University (Figure 1) is located in an urban area. The area owned by the municipality is highly covered with forests and arable lands, although the area surrounding the campus is highly urbanized. The forests of the university are not natural but planted by the students when the campus was established in 1975. There is a student town (Gorukle) which is in the close close neighborhood of the campus. Main campus is 20 km to the city center, less than 3km to the Gorukle student town and less than 3 km to highly urbanized areas. The population density in Gorukle student town is 4 036.4 inhabitants/km²; it is 1717.5 inhabitants/km² in the urbanized neighborhood close to the university. Figure 2 shows the proximity of the university to the urbanized regions in the city.
