### [5] Transportation (TR)

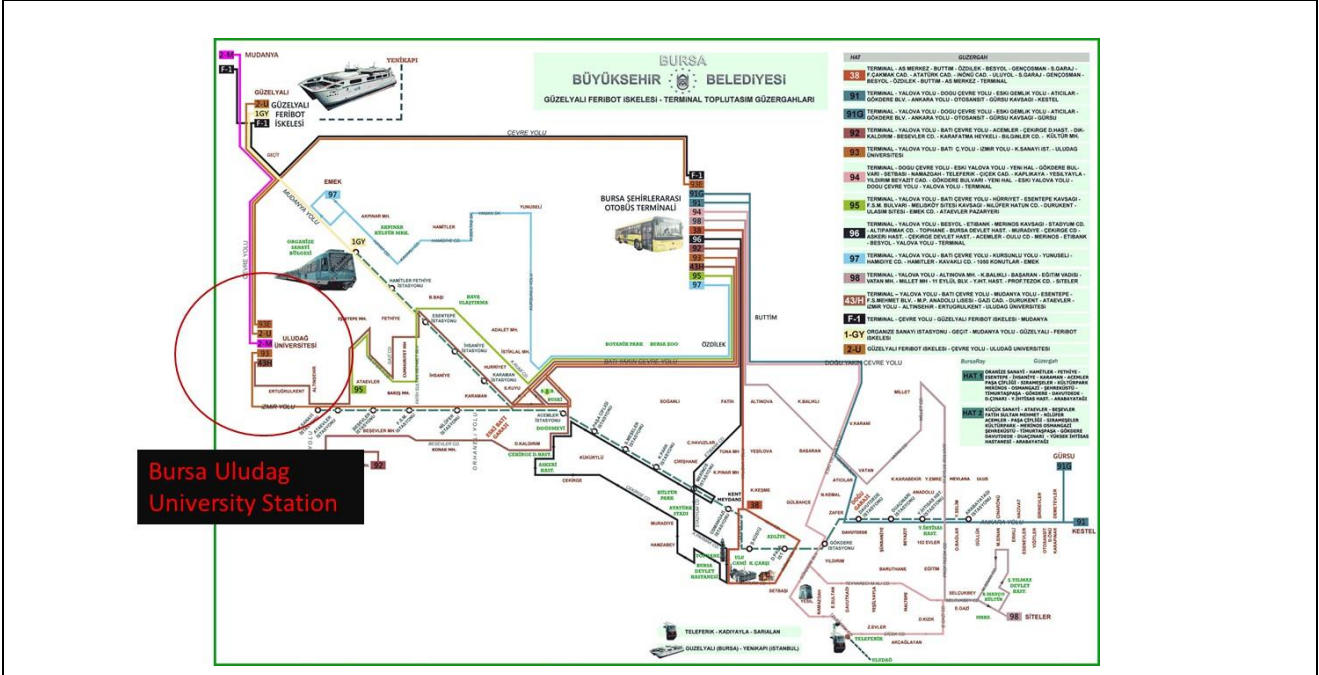

#### [5.14] Program to limit or decrease the parking area on campus for the last 3 years (from 2019 to 2021)

Metro station at the entrance of the campus  
(Bursa Uludag University, Turkey)

City buses reach the university from many points of the city

Public Transport System of Bursa City: Metro line and many buses reach the university main campus (Bursa Uludag University, Turkey)

Minibus lines to university: Minibuses are also available to carry students between the student town to the campus

Minibuses in the campus: Minibuses within the campus carry the students within the campus

Bike stations: Students use bicycles to provide transportation both within the university and from Görükle. They can easily park their bikes at 4 different stations within the university.

**Description:**

The following are *the transportation initiatives to decrease private vehicles on campus:*

1. Buses operated by the municipality are available from many points of the city.
2. Metro line is connected to university campus. There is also a metro station at the entrance of the campus.
3. Minibuses are available within the campus that serve the transportation needs inside the campus. The minibuses also transfer the students to the student town.
4. There are 4 bike stations on campus. In this way, students can reach the campus by bicycle. At the same time, students can easily commute from Gorukle to the campus.
