### [3] Waste (WS)

#### [3.2] Program to Reduce the Use of Paper and Plastic on Campus

1. Paperless document management system of Bursa Uludag University, Turkey

2. Training programs on the application of recycling program, recycling bins in the buildings (one container for recyclables, one container for organic waste)

3. Zero waste representatives of the Bursa Uludag University Main Campus (left), an example of regular training activities on recycling programs (right)

4. One of the commercial activities within the campus, where plastic waste reduction program is applied

Example of Program to Reduce the Use of Paper and Plastic in Campus (Bursa Uludağ University, Turkey)

**Description:**

1. Bursa Uludağ University supports paperless system to reduce paper in daily workplace. All departments within the campus use electronic document management system and e-signatures are used as part of this system.
2. Recyclable bins are used all of the campus buildings, and systemic training programs are applied on recycling.
3. Zero waste representatives are determined within the campus from the staff of the university. They are responsible from the department-level management of the recyclable waste.
4. All of the markets and restaurants in the campus are within the zero waste project system. One obligation for this is reducing the use of single-use plastic waste. Those commercial enterprises within the campus apply a fee for plastic bag to the customers as part of this reduction campaign.
5. In order to collect recyclable wastes such as paper and plastic, which are among the most common wastes on campus, different from others, special boxes have been placed for this type of waste at many points both inside and outside the campus.
