[4] Water (WR)

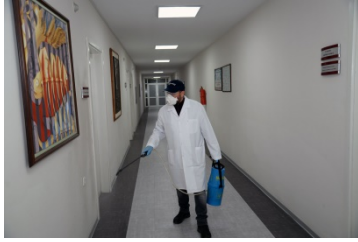

[4.5] Percentage of additional handwashing and sanitation facilities during Covid-19 pandemic

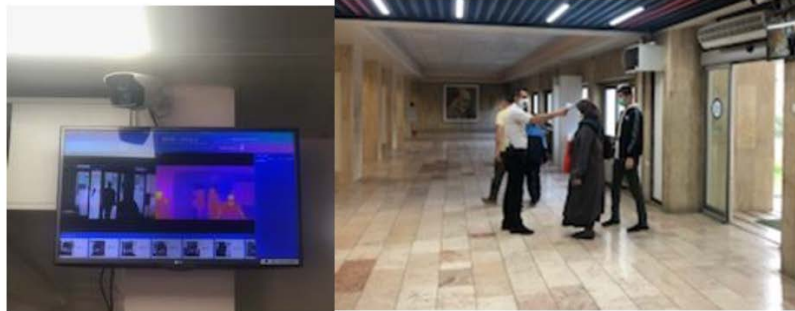

Information signboards about pandemic rules within the buildings of the campus
(Bursa Uludag University, Turkey)

Disinfection Points can be found in every building of the main campus
(Bursa Uludag University, Turkey)

Disinfection efforts at the buildings of Bursa Uludag University (Buildings were disinfected on a regular basis during the pandemic)

Temperature measurement and thermal cameras at the entrance of the hospital buildings

Examples of handwashing and sanitation facilities during Covid-19 pandemic
(Bursa Uludag University, Turkey)

Description:

Disinfectant points and hand sanitizer containers were provided for every building within the campus. Thermometers were provided for several buildings. However, the university hospital has a higher level of disinfection measures, such as disinfectant chambers, isolated rooms, etc. Every building received sufficient amount of antiseptic solutions, sufficient number of sanitation apparatus, disinfection services during the pandemic. Therefore it will not be wrong to mention that the percentage of the additional sanitation facilities during pandemic were above 90%.
