

Interdisciplinary and international Design Build Summerschool Renewable Materials

DESIGN BUILD PROJECT

‘HSRM Competence Centre for Renewable Building Materials’ is inviting national and International students to the 3rd edition of it’s Summer School “Building with renewable materials”.

The international and interdisciplinary Summer School will feature various techniques of earthen- and bamboo construction as well as experimenting with a wider range of renewable building materials. It should serve as a catalyst to all participants to gain practical experience in the field of sustainable building materials.

HOW TO REGISTER

For Registration, please send an Email with a short CV by 16th of June, 2024 to christoph.diekhans@hs-rm.de. Confirmation to the participants will be send out by 23rd of June, 2024.

TEAM

The team of the ‘Competence center’ is looking forward to the design build week: Prof. Dipl. Arch. ETH Sascha Luippold, Dr.-Ing. Oliver Bletz-Mühldorfer, Dipl. Ing. Architekt Andrés Böppler, Dipl.-Ing. Jan Glasmeier, M.Sc. Pascal Franck, M.Sc. Paulino Botao, M.Sc. Nikolai Ochs and M.Sc. Christoph Diekhans.

GENERAL FACTS

ORGANISER

HSRM Competence Center for Renewable Building Materials

DATES

26.08.24 - 31.08.2024

LOCATION

Campus HS-RM
Wiesbaden
Kurt-Schumacher-Ring 18

COSTS

No participation fee.
Costs for travel and food has to be covered by the participant

ACCOMODATION

Avaiable on campus after consultation

ACCREDITATION

4 ECTS (for external possible)
