Ad-Soyadı   Makale Adı

Prof. Dr. Salih ÇEPNİ   Scaffolding Pre-service Science Teachers' Problem

Solving Strategies in a Methane Gas Detector Task Within an Earthquake-
Robotics PD Course

Prof. Dr. Salih ÇEPNİ
Promoting 21st Century Emerging Technologies in Science Education In Light

 of Photonics Education Framework

Prof. Dr. Salih ÇEPNİ   Effectiveness of the prediction-observation-
explanation strategy on students with mild intellectual disabilities

Doç. Dr. Meral TANER DERMAN Concerns of earthquake survivor mothers for
their children and the role of school leadership in addressing them

Doç. Dr. Meral TANER DERMAN   Digital play addiction and interactive peer
play behaviors in preschool children

Doç. Dr. Meral TANER DERMAN   Navigating parenthood in a new culture:
The experiences of Syrian migrant families in Türkiye

Prof. Dr. Yeliz YAZGAN   The link between non-routine problem-solving success
levels and strategic flexibility of gifted fourth-grade students

Prof. Dr. Yeliz YAZGAN   An Analysis of Gifted and Non-Gifted Fifth Graders'
Strategic Flexibility1

Doç. Dr. Fatih CAMADAN	Relationship between metacognitive skills and career exploration outcome expectations: mediating role of parental and peer attachment styles

Doç. Dr. Fatih CAMADAN	The Mediating Role of Social Connectedness and Perceived Spousal Support in Explaining the Relationship Between Parental Burnout, and Their Interpersonal Cognitive Distortions

Doç. Dr. Eyüp YURT The interplay between Five-Factor personality traits and AI use motives in Turkish pre-service teachers: A canonical correlation analysis

Doç. Dr. Eyüp YURT The Influence of Parental Attitude, School Climate,

and Classroom Management on Critical Thinking: The Significance of Inclusive

Classrooms in Higher Education

Doç. Dr. Hacer BELEN	Strength-based parenting improves depression outcomes and promotes posttraumatic growth in earthquake survivors: a longitudinal study

Doç. Dr. Hacer BELEN	Understanding perceived COVID-19 changes, collectivism, and social exclusion: A cross-cultural study in 32 countries
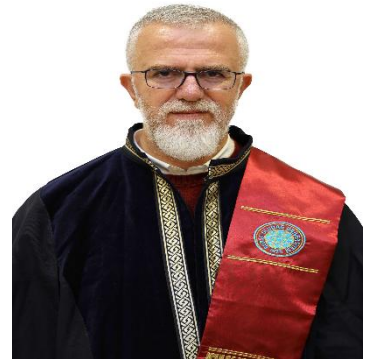

Prof. Dr. Emin ATASOY Prerequisites for Developing a Classification

of Phase Transitions in Systems Based on

Thermosensitive Polymers: Use of a Semi-Empirical Model

Prof. Dr. Nimet Remziye ERGÜL   Determining the digital carbon
footprint awareness of pre-service teachers

Prof. Dr. Selahattin TURAN   Artificial intelligence, generative artificial
intelligence and research integrity: a hybrid systemic review

Doç. Dr. Salih BİRİŞÇİ   Scaffolding Pre-service Science Teachers' Problem-
Solving Strategies in a Methane Gas Detector Task Within an Earthquake-

Robotics PD Course

Doç. Dr. Pınar BAĞÇELİ KAHRAMAN   Fathers' Interactions with their 3-6 Year-Old Children: An Examination from the Perspective of Emotional Abuse

Doç. Dr. Hatice Kübra GÜLER SELEK   An Analysis of Gifted and Non-Gifted Fifth Graders' Strategic Flexibility1

Doç. Dr. Sevgül ÇALIŞ   Determining the digital carbon footprint awareness of pre-service teachers

Doç. Dr. Nurcan KAHRAMAN   Determining the digital carbon footprint awareness of pre-service teachers

Doç. Dr. Dilek ZEREN ÖZER Determining the digital carbon footprint awareness of pre-service teachers

Dr. Öğr. Üyesi Hazel DURU   Developing and validating career sustainability scale: sample of Turkish university students
