Topic: Artificial Intelligence (AI)

Artificial intelligence (AI) is technology that enables machines to simulate human intelligence. From virtual assistants like Siri to self-driving cars, AI applications continue to expand and impact the way we live and work.

Question 1: Do you make use of AI in your daily life? What do you use AI for in your life?

Question 2: Do you use AI for tasks you can do by yourself? Why?

Question 3: What are the advantages and disadvantages of using AI instead of humans?
